## PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience across React.js, Next.js, Node.js, Express.js, MySQL and MongoDB. Hands-on with REST API development, application debugging, root cause analysis, and database query optimization across frontend and backend systems. Interested in Technical Support and Performance-focused roles.

## EDUCATION

### DEPSTAR, Anand, India

B.Tech in Computer Science & Engineering

2021 – 2024

### RCTI, Ahmedabad, India

Diploma In Computer Engineering

2018 – 2021

## TECHNICAL SKILLS

- **Languages:** JavaScript, HTML/CSS
- **Frontend:** React.js, Next.js, Redux
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, MSSQL, MongoDB (query design, optimization via Sequelize/Mongoose ORM)
- **APIs:** REST API development, third-party API integration
- **Technical Support:** Application debugging, issue analysis, root cause analysis (RCA), functional troubleshooting across frontend and backend
- **Tools:** Git/GitHub, Postman

## PROFESSIONAL EXPERIENCE

### Spontaneous Enterprise OPC PVT. Ltd - Software Developer

March 2026 – Present

- Developed and maintained responsive ERP modules and CRM features using React.js.
- Integrated RESTful APIs and managed application state using Redux for seamless data flow.
- Built reusable UI components and implemented business workflows for the ERP application.
- Collaborated with cross-functional teams to develop, test, and optimize frontend features.
- Worked with MySQL and MSSQL databases for querying, data management, and performance optimization within ERP workflows.

### HarichTech - Full Stack Developer

July 2025 – Jan 2026

- Developed and maintained RESTful APIs using Node.js and Express.js within the MERN stack to support dynamic web and mobile applications.
- Used MongoDB/Mongoose for database management and optimized queries. Integrated APIs with React, using Redux for state management.
- Worked with JWT for secure authentication and authorization, ensuring robust and scalable user access control.

### INE.InfoTech - Full Stack Developer

July 2024 – July 2025

- Developed and maintained RESTful APIs using Node.js and Express.js to support web and mobile applications.
- Gained hands-on experience with ORM Sequelize for efficient database management and query optimization across MySQL and MSSQL databases.
- Integrated APIs into Next.js frontend applications, ensuring seamless communication between client and server.

### Zignuts Technolab - Full Stack Intern

Feb 2024 – May 2024

- Developed and maintained full-stack web applications using Node.js, Express.js, and MongoDB, including building RESTful APIs and implementing JWT-based authentication for secure user login and registration.
- Integrated responsive frontends using React and Redux, effectively managing complex application state and ensuring seamless user experiences.

### BrainyBeam Technologies - Full Stack Intern

May 2023 – June 2023

- Developed and maintained web applications using Django and Python, contributing to both the frontend and backend architecture.

### Aslan Services - Web Developer - Intern

May 2022 – June 2022

- Assisted in the development of responsive web applications using HTML, CSS, JavaScript, and WordPress.

## PROJECTS

- **Aloqa AI** - Built an AI-automated calling solution to engage leads, manage site visits, and convert prospects into customers.
- **Cusp** - Built a job portal with social features, using RESTful APIs and Axios for seamless frontend integration.
- **Avoyes** - Built a robust Node.js backend and integrated APIs with Axios for real-time updates.
- **INE International** - Developed a scalable Next.js website with email APIs and chatbot support.
- **Invoice Generator App** - Developed a client invoicing system with auto GST, PDF export, and status tracking using MERN.
- **Chat N Chill** - Developed a real-time chat application.
- **Expense Tracker** - A web-based application that helps users track their expenses and manage their finances.
- **SnapShop** - Developed a fully functional e-commerce website.
- **Patang-Firki** - Designed and developed a clone of the iconic Patang Hotel website using React.
- **Auction House** - Innovative web platform for online auctioning of lands and houses.
- **Aapnu Amdavad** - Android-based project designed to empower the citizens of Ahmedabad.
